SUMMARY

CS undergraduate at St. Mary's University and IBT CodeOps trainee. Built and deployed 3 responsive React web applications. Seeking a .NET Software Developer internship or Campus Ambassador role to leverage frontend architecture skills and transition into backend systems.

TECHNICAL SKILLS

- **Languages & Core:** JavaScript (ES6+), Java, HTML5, CSS3, Object-Oriented Programming (OOP)
- **Frontend:** React.js, Next.js, Tailwind CSS, component-based UI, responsive design
- **Tools:** Git, GitHub, Vite, Vercel, Netlify, VS Code

PROJECTS

Addis Eats | *React, JavaScript, Global State* | Code: github.com/ezra-mesele/addis-eats

- Built a mobile-first e-commerce platform with a custom checkout system, cart management, and dynamic search mapping.

Campus Space Booker | *React, Context API, CSS Grid* | Code: github.com/ezra/campus

- Developed a responsive SaaS reservation dashboard featuring real-time capacity tracking and status badge workflows.

Clinic Diary | *React, React Router* | Code: github.com/ezra-mesele/clinic-diary

- Architected an accessible medical dashboard with complex form validation to securely manage daily patient operations.

EDUCATION & TRAINING

- **Advanced Digital Skills: CodeOps** — IBT College of Canada | Sep 2026 – present

- **BSc, Computer Science** — St. Mary's University | 2024 – present

LANGUAGES

English (Professional working proficiency) | Amharic (Native)
